

## Achievement and Cognitive Abilities Basic Training

Presented By: James Creed, M.Ed, LD Specialist and Trainer for the WJIII

### COURSE OVERVIEW:

This workshop is designed for those professionals who have attended WJIII Basic Training, have experience in the administration and scoring of the COG and/or ACH Batteries, and use the batteries in their roles as members of diagnostic teams. Administrators would also benefit from seeing the value that this theory-based, co-normed system brings to the diagnostic process.

The participants will:

- Review fine points of administration and scoring
- Learn a referral-focused testing approach to selecting tests
- Review levels of information available
- Review interpreting profiles (A/G and SS/PR)
- Review interpreting clusters and individual tests
- Review COG factors and ACH clusters
- Review intra-ability and ability/achievement discrepancy procedures and practical uses in the diagnostic process
- Review relevant case studies
- Review basic and advanced report-writing techniques and strategies
